

Create Category Groups

Create category groups by combining existing question categories for more efficient use. For example, a category group called GI OSCE could include the GI, History Taking, and Physical Examination categories.

Create

To create a new Category Group:

1. Click **Items Library > Category Group > Add New.**
2. Complete the required fields:

Field	Description
Category Group Name*	This is the name of the grouping of categories (a maximum of 50 characters are allowed).
Status	Select Active or Retired .
Categories*	Select the Category names from the grid by clicking the checkbox (click the checkbox in the row including Category Name and Grading to select all categories).
* Required field	

Note: If a category group is activated for a session in which scores have already been generated, be sure to regenerate the scores prior to generating scoring reports.

1. Click **Save Changes** at the bottom of the screen to save.
