

Organization Structure and Learner Groups

The Organization Structure sorts users into a hierarchy by dividing your parent Organization into sub-units.

Organization Unit	Status
EMS Institute	<input type="checkbox"/> Active
School of Nursing	<input type="checkbox"/> Active
Science	<input type="checkbox"/> Retired

Why create an Organization Structure?

- Run reports by unit name to see room and equipment usage.
- Designate Learner Groups within each Organization Unit, and then add learners as members.
- Apply permissions to an entire Organization unit to view and/or download videos.

Create an Organization Unit

Organization Unit ✕

To add or edit the organizational hierarchy, type the Unit Name, select the Unit Type, and select the Unit Head for this unit. To associate users with this level of the hierarchy, click the Learner Group checkbox. Click 'Save' to save this unit to the organization structure.

- The list of Organization Units appears, with our parent organization at the top. If other units have not been added yet, the parent will be the only unit that appears.

Note: For new customers, your application is delivered with one parent Organizational Unit within the structure, which is listed at the top level of the Organization Structure. If you are an Arcadia customer, your Branches will migrate into units into your new system.

- Click the checkbox to the right of the Organization Unit that will be the parent to the unit you are creating.
- Click **Add New**. The Organization Unit screen appears.

Organization Unit ×

To add or edit the organizational hierarchy, type the Unit Name, select the Unit Type, and select the Unit Head for this unit. To associate users with this level of the hierarchy, click the Learner Group checkbox. Click 'Save' to save this unit to the organization structure.

Save

- Complete the *required fields.

Note: When adding members to an Organizational Unit, we recommend that you choose “Department” as the Organization Unit Type and check the Learner Group box so the members are automatically put into a Learner Group.

Learner Groups

Create Learner Groups to associate users with this Organization Unit.

Why create Learner Groups?

- Filters your search for learners by a selected Learner Group.
- A Learner Group is necessary if you will be allowing learners to self-register for sessions.
- Permissions to view and/or download videos can be applied to an entire Learner Group.

Organization Unit ×

To add or edit the organizational hierarchy, type the Unit Name, select the Unit Type, and select the Unit Head for this unit. To associate users with this level of the hierarchy, click the Learner Group checkbox. Click 'Save' to save this unit to the organization structure.

<input type="checkbox"/>	Name	Username	Email	Type
<input type="checkbox"/>	Admin, Leslie	ladmin	ladmin@ems.com	Administrator

1. Check the checkboxes to filter your search by **user type** or use the drop down menu to filter your search by **user role**.
2. Type a keyword (for example: part of a user name) in the **Keyword** field and click **Search**.
3. Type the name in the Search field and then click **Search**.
6. The search results are filtered based on your search criteria. Select the user by checking the checkbox to the left of their name and then click **Save**.

Add a user to a unit or learner group through their profile page

1. Click **Settings > User Management > User List** and locate the user from the Search Results.
2. Click the user's **name** hyperlink in the Name column. This will open their **Profile Page**.
3. Go to the **Permissions** section of the page. The **Organization Units** will be listed in the Organization Structure grid.
4. Check the checkboxes in the **Member** or the **Administrator** column of any of the appropriate unit.

5. Click **Save Changes**.

Verify User is in a Learner Group from the Explore tab

Click **Settings > User Management > User List > Learner Group**.

Note: Click F5 to refresh the page after you add a learner group. The Learner Group will appear in **User Management > User List > Learner Group**.

Verify User is in a Learner Group from their Profile page

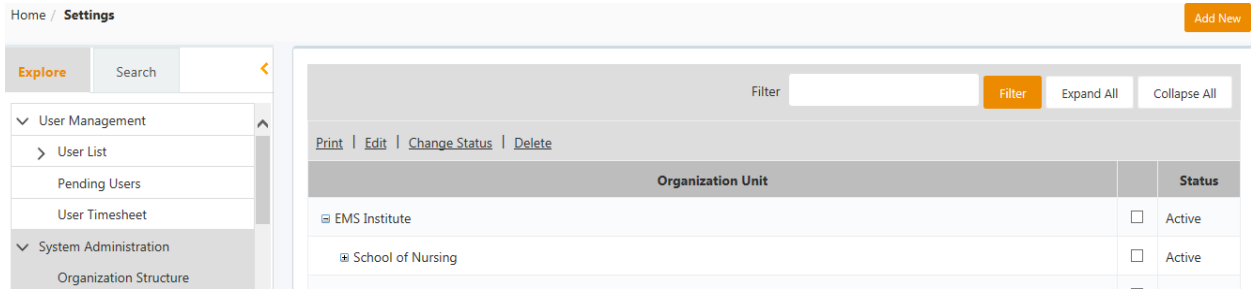

1. Find your user's name by clicking **Settings > User Management > User List > User Type > Learner**.
2. Click on the user name to open the User Profile.
3. In the **Permissions** section of the page, in the Learner Groups grid, verify the checkbox is checked next to the Learner Group in which you want the user to be a member.
4. Click **Save Changes**.

To Remove Users from an Organization Unit

1. Click **Settings > Organization Structure**.
2. Click the checkbox to the right of the Organization Unit of the member you wish to remove
3. Click the **Edit** link at the top of the grid.
4. From the Members grid, locate the user you want to remove, click the checkbox next to the name and then click **Delete**.
5. To delete multiple users, click the checkbox next to each user's name and then click the Delete link at the top of the grid.
6. Click **Save**.

Change Organization Unit Status from Active to Retired

1. In **Settings > System Administration > Organization Unit**, click the checkbox to the right of the unit listed to select it.
